Fees Collected by the BitShares Blockchain through March 2017

Taconator

1   Introduction

The BitShares 2.0 blockchain has been collecting fees for various operations since its inception on October 13, 2015. As of April 2017, there are 45 types of operations available on the blockchain including account operations, asset operations, transfers operations, market operations, etc.

This document reports on the various fees that have been collected on the Blockchain from the blockchain's inception through March 2017. Note that these collected fees are subsequently distributed to different stakeholders during maintenance intervals. Furthermore, these fees are distributed according to dynamic parameters that are specified by stakeholders, committee members, asset issuers, and the type of account that is paying for the operational fee. To reiterate, the fees reported in this document are merely the fees collected by the blockchain network and which are later distributed to various accounts. These fees are a superset of the fees that are ultimately distributed to the network's fee pool (e.g. as of April 2017, 20% of the collected fees are distributed to the blockchain itself). In addition, this document does not report on the volume of activities on the network; rather it is focused on the fees collected as a result of the activities. Finally, this document does not report on the subsequent distribution of the collected fees to entities such as the network, witnesses, worker proposals, asset issuers, referrers, nor lifetime member accounts.

Every operation that occurs on the network has an associated fee that may be paid for with any asset that is available on the network.[1] The quantities that are reported in this document are all reported in terms of the asset units that were specified for fee payment (e.g. BTS, bitGold, etc.) and are not expressed in terms of any common asset unit.

2   Summary

The total fees collected by the Bitshares Network since inception through March 2017 are reported in Appendix A. Fees were collected in 349 assets. The total fees collected in the core asset, BTS, are 47,106,798 BTS. During that timespan, the distribution of operations contributing towards those BTS fees are shown in Table 1. The top three sources of generated fees are asset creation operations, account upgrade operations (e.g. from standard membership to lifetime membership), and account creations.

Table 1. The rounded distribution of collected BTS fees across types of operations from blockchain inception through March 2017

Operation	Total (BTS)
Asset Creation	48%
Account Upgrades	26%
Account Creation	17%
Limit Order Creation	3%
Transfer Operation	2%
Asset Publish Feed	1%
Vesting Balance Withdrawal	1%
Witness Creation	1%

---

1   However, it has been observed that most fees are paid for using the blockchain's core asset, BTS.
